Forward-Looking Statements

Except for historical information contained in this press release, the matters discussed in this press release (principally the Company's estimates for fourth quarter and full year revenues) are forward looking statements that involve risks and uncertainties. The factors that could cause actual results to differ materially from the forward-looking statements in this press release relate primarily to unexpected modifications that could arise as part of the year-end audit process. Among the factors that could generally cause the Company's results to differ materially from its forward-looking statements are: the market concerns facing our customers, the continuing viability of sectors that rely on our products, the effect of business and economic conditions; capacity and supply constraints or difficulties; product development, commercializing or technological difficulties; the regulatory and trade environment; risks associated with foreign currencies; the market's acceptance of the Company's new products and competitive responses to those new products and the risk factors detailed from time to time in the Company's SEC reports.
