Bel Reports Second Quarter 2016 Results

JERSEY CITY, NJ, July 27, 2016 - Bel Fuse Inc. ("Bel," or "the Company") (NASDAQ:BELFA and NASDAQ:BELFB) today announced preliminary financial results for the second quarter of 2016.

Second Quarter 2016 Highlights

- Net sales decreased 9.6% to \$131.6 million in the second quarter of 2016 as compared with \$145.7 million in the second quarter of 2015.
- Operating income was \$10.0 million in the second quarter of 2016 as compared with operating income of \$7.5 million in the second quarter of 2015.
- GAAP EPS was \$1.83 per Class A share and \$1.93 per Class B share in the second quarter of 2016 as compared with GAAP EPS of \$0.49 per Class A share and \$0.52 per Class B share in the second quarter of 2015. Non GAAP EPS was \$0.43 per Class A share and \$0.46 per Class B share in the second quarter of 2016. This compares with Non GAAP EPS of \$0.57 per Class A share and \$0.60 per Class B share in the second quarter of 2015.

Non GAAP financial measures, such as Non GAAP EPS, exclude the impact of acquisition-related costs, restructuring charges and certain other items. Please refer to the financial information included with this press release for reconciliations of GAAP financial measures to Non GAAP financial measures.

CEO Comments

Daniel Bernstein, President and CEO, said "We are pleased with the performance of the business in the second quarter of 2016 despite lower revenues. Bel's post acquisition cost saving and restructuring efforts completed last year have reduced fixed costs and allowed for continued improvement in profitability while we position for future revenue growth. As Bel moves forward, our focus turns to improving top line growth and we have realigned our sales structure to accomplish this goal.

"Bel's Cinch Connectivity Solutions (CCS) business finished the second quarter with essentially flat sales but improved operating profitability resulting from lower costs and favorable sales mix as compared with the same period last year. We were able to overcome continued general market weakness with improved distribution sales, highlighted by significant gains in sales through our value added distribution partners servicing the commercial avionics market and improved sales of our optical products sold primarily into high reliability military applications. CCS continues to allocate a significant amount of our design resources to the development of next generation avionics products and we are encouraged by recent progress made in the design of these products and in the qualification of these products with our OEM (original equipment manufacturer) customers. This effort and expected demand increases on existing commercial avionics platforms are anticipated to provide sales growth in future quarters.

"Bel Power Solutions (BPS) sales continued to decline as a result of previous management's actions. These actions had resulted in BPS being removed from key customers' preferred supplier lists. As a result of taking corrective actions since acquiring BPS, over the past 12 months we have been able to regain that status at key customers; however, not being able to participate in new designs for a period of time has contributed to a large part of the decline in sales. BPS has refreshed its product lines and introduced new products for the Rail industry and Open Compute market. Also, BPS will open a Taiwan engineering design and support center in August 2016 to better service the local needs of the ODM (original design manufacturer) customers who work closely with our major customers on the development of their new systems. We continue to expect BPS to be a major driver of future growth of our business.

"Bel's Magnetic Solutions products sales were lower in the second quarter of 2016 as compared with the same period last year as a result of a decrease in our ICM product sales. These products are mainly used by Networking and Telecommunication manufacturers."

Second Quarter 2016 Results

Net Sales

Net sales decreased 9.6% to \$131.6 million in the second quarter of 2016 as compared with \$145.7 million in the second quarter of 2015, primarily due to lower sales of Bel's power solutions and protection products, as well as certain magnetic products.

Gross Profit

Gross profit decreased 10.0% to \$25.7 million in the second quarter of 2016 as compared with \$28.6 million in the second quarter of 2015 primarily due to the impact of lower sales. Despite the decline in net sales, lower material costs, lower warranty costs and a favorable mix of products sold enabled gross profit margin to remain essentially flat. In addition, the restructuring efforts taken last year also had a favorable impact on the second quarter of 2016 gross profit margin.

Selling, General and Administrative Expenses (SG&A)

SG&A expenses decreased 13.5% to \$18.0 million, or 13.6% of net sales in the second quarter of 2016 as compared with \$20.8 million, or 14.3% of net sales in the second quarter of 2015. In the second quarter of 2016, we recorded a benefit of \$2.4 million for certain value-added and business tax items recorded in connection with the acquisition of Power Solutions. Also, in the second quarter of 2016, foreign currency exchange gains increased \$0.6 million as compared with the second quarter of 2015.

Goodwill and Other Intangible Assets Impairment

In the second quarter of 2016, we finalized the goodwill and other intangible assets impairment analysis, and, as a result, we recorded a \$2.6 million reduction to the impairment charge.

Operating Income

Operating income was \$10.0 million in the second quarter of 2016 as compared with operating income of \$7.5 million in the second quarter of 2015.

Income Taxes

Income tax benefit was \$14.1 million in the second quarter of 2016 as compared with an income tax benefit of \$0.6 million in the second quarter of 2015. The income tax benefit in the second quarter of 2016 included a net benefit related to the resolution of certain liabilities for uncertain tax positions of \$10.4 million and a net benefit related to the goodwill and other intangible assets impairment of \$2.3 million finalized in the second quarter of 2016. In addition, the mix of pre-tax earnings and losses in different jurisdictions contributed to the benefit in the second quarter of 2016.

Net Earnings

Net earnings was \$22.8 million in the second quarter of 2016 as compared with net earnings of \$6.1 million in the second quarter of 2015.

First Half 2016 Results

Net Sales

Net sales decreased 12.1% to \$252.8 million in the first half of 2016 as compared with \$287.7 million in the first half of 2015, primarily due to lower sales of Bel's power solutions and protection products, as well as certain magnetic products.

Gross Profit

Gross profit decreased 11.9% to \$48.8 million in the first half of 2016 as compared with \$55.4 million in the first half of 2015 primarily due to the impact of lower sales. Gross profit margin was relatively flat in the first half of 2016 as compared with the first half of 2015. Gross profit margin performance reflected the impact of lower sales, offset by lower material costs, lower warranty costs and the favorable mix of products sold. In addition, the restructuring efforts taken last year also had a favorable impact on the first half of 2016 gross profit margin.

Selling, General and Administrative Expenses (SG&A)

SG&A expenses decreased to \$35.6 million, or 14.1% of net sales in the first half of 2016 as compared with \$38.4 million, or 13.3% of net sales in the first half of 2015. In the first half of 2016, we recorded a benefit of \$5.2 million for certain value-added and business tax items recorded in connection with the acquisition of Power Solutions. These factors were partially offset by a decrease in foreign currency exchange gains of \$4.3 million in the first half of 2016 as compared with the first half of 2015.

Goodwill and Other Intangible Assets Impairment

In the second quarter of 2016, we finalized the goodwill and other intangible assets impairment analysis, and, as a result, we recorded a \$2.6 million reduction to the impairment charge. The final impairment charge was \$106.0 million in the first half of 2016. As previously disclosed, this impairment charge will not result in any future cash expenditures, impact liquidity, affect the ongoing business or financial performance of our reporting units, or impact compliance with our debt covenants.

Operating (Loss) Income

Operating loss was \$(93.4) million in the first half of 2016 as compared with operating income of \$16.5 million in the first half of 2015.

Income Taxes

Income tax benefit was \$19.0 million in the first half of 2016 as compared with an income tax provision of \$1.4 million in the first half of 2015. The income tax benefit in the first half of 2016 included a net benefit related to the resolution of certain liabilities for uncertain tax positions of \$13.0 million and a net benefit related to the goodwill and other intangible assets impairment of \$4.4 million finalized in the second quarter of 2016. In addition, the mix of pre-tax earnings and losses in different jurisdictions contributed to the benefit in the second quarter of 2016.

Net (Loss) Earnings

Net loss was \$(77.9) million in the first half of 2016 as compared with net earnings of \$11.4 million in the first half of 2015.

Balance Sheet Data

As of June 30, 2016, working capital was \$160.4 million, including \$67.5 million of cash and cash equivalents with a current ratio of 2.6-to-1. Total debt was \$156.5 million. In comparison, as of December 31, 2015, working capital was \$158.6 million, including \$85.0 million of cash and cash equivalents with a current ratio of 2.3-to-1 and total debt of \$183.5 million.

Conference Call

Bel has scheduled a conference call at 11:00 a.m. EDT today. To participate, dial (888) 430-8709 or (719) 325-2455 if dialing internationally, conference ID number: 5201184. A simultaneous webcast of the conference call may be accessed online from the Events and Presentations link of the Investors page under the "About Bel" tab at www.BelFuse.com. The webcast replay will be available for a period of 20 days at this same Internet address. For a telephone replay, dial (877) 870-5176, replay PIN number: 5201184 after 2:00 p.m. EDT.

About Bel

Bel (www.belfuse.com) designs, manufactures and markets a broad array of products that power, protect and connect electronic circuits. These products are primarily used in the networking, telecommunications, computing, military, aerospace, transportation and broadcasting industries. Bel's product groups include Magnetic Solutions (integrated connector modules, power transformers, power inductors and discrete components), Power Solutions and Protection (front-end, board-mount and industrial power products, module products and circuit protection), and Connectivity Solutions (expanded beam fiber optic, copper-based, RF and RJ connectors and cable assemblies). The Company operates facilities around the world.

Forward-Looking Statements

Non-historical information contained in this press release (including the statements regarding future revenues from BPS, the opening of a Taiwan engineering and design support center, the expectation of BPS to be a major driver of future growth of our business, potential demand increases in the Commercial Aerospace business and positioning for future growth are forward-looking statements (as described under the Private Securities Litigation Reform Act of 1995) that involve risks and uncertainties. Actual results could differ materially from Bel's projections. Among the factors that could cause actual results to differ materially from such statements are: the market concerns facing our customers; the continuing viability of sectors that rely on our products; the effects of business and economic conditions; difficulties associated with integrating recently acquired companies; capacity and supply constraints or difficulties; product development, commercialization or technological difficulties; the regulatory and trade environment; risks associated with foreign currencies; uncertainties associated with legal proceedings; the market's acceptance of the Company's new products and competitive responses to those new products; and the risk factors detailed from time to time in the Company's SEC reports. In light of the risks and uncertainties impacting our business, there can be no assurance that any forward-looking statement will in fact prove to be correct. We undertake no obligation to update or revise any forward looking statements.

Non-GAAP Financial Measures

The non GAAP measures identified in this press release as well as in the supplementary information to this press release are not measures of performance under accounting principles generally accepted in the United States of America ("GAAP"). These measures should not be considered a substitute for, and the reader should also consider, income from operations, net earnings, earnings per share and other measures of performance as defined by GAAP as indicators of our performance or profitability. Our non GAAP measures may not be comparable to other similarly-titled captions of other companies due to differences in the method of calculation.

Website Information

We routinely post important information for investors on our website, www.belfuse.com, in the "Investor Relations" section. We use our website as a means of disclosing material, otherwise non-public information and for complying with our disclosure obligations under Regulation FD. Accordingly, investors should monitor the Investor Relations section of our website, in addition to following our press releases, SEC filings, public conference calls, presentations and webcasts. The information contained on, or that may be accessed through, our website is not incorporated by reference into, and is not a part of, this document.

(1) The supplementary information included in this press release for 2016 is preliminary and subject to change prior to the filing of our upcoming Quarterly Report on Form 10-Q with the Securities and Exchange Commission.

(2) In this press release and supplemental information, we have included non-U.S. GAAP financial measures, including EBITDA and Non U.S. GAAP EPS. We present results adjusted to exclude the effects of certain specified unusual items and their related tax impact that would otherwise be included under U.S GAAP, to aid in comparisons with other periods. We may use Non-U.S GAAP financial measures to determine performance-based compensation and management believes that this information may be useful to investors.

The following tables reconcile our US GAAP net earnings per common Class A and Class B basic and diluted shares ("GAAP EPS") to Non US GAAP net earnings per common Class A and Class B basic and diluted shares ("Non GAAP EPS"). Non GAAP EPS for the 2015 periods presented below has been revised to reflect the impact of the Power Solutions acquisition related items and settlements included in selling, general and administrative expenses and income taxes. In 2015, Non GAAP EPS was previously presented as \$0.52 per Class A shares and \$0.55 per Class B share for the three months ended June 30, 2015 and \$1.00 per Class A share and \$1.07 per Class B share for the six months ended June 30, 2015.
