

New Essential RJ Modular Jack Line for Common Modular Jack Applications

Glen Rock, PA [June 29, 2021] Stewart Connector, a Bel group company today announces their new Essential RJ modular jack line.

This new line of modular jacks is an attractive solution for most applications and footprints. Stewart's Essential modular jacks support the transmission of 100 Mbps signals targeted to hubs, switches, and routers. This line of modular jacks includes both right angle and vertical thru-hole mounted options for 4, 6, and 8 position unshielded modular jacks. The RoHS compliant Essential modular jacks feature 15 micro-inches of gold plating in the contact mating area, in contrast to competitive models that feature gold flash plating.
