

## Signal Transformer's New Comprehensive Catalog Features Power Transformers and High Frequency Magnetics

Inwood, NY, February 19, 2009...Signal Transformer, a subsidiary of Bel Fuse Inc. (NASDAQ: BELFA & BELFB), today announced the availability of a new full line catalog. The 56-page, 4-color literature offers photos, and detailed specifications pertaining to the company's extensive portfolio of power transformers, high frequency magnetics, and custom options. Offered to provide OEMs with a single reference for all their magnetics requirements, the catalog details over 1,000 distinct models of in-stock chokes and transformers with capabilities from 1 VA to 10 KVA. Information pertaining to custom designs, with capabilities to 45 KVA is further presented. The catalog's complete series of off-the-shelf laminated, toroidal chassis mount, and PCB mount transformers, inductors, and supplemental magnetics usually ship the same day.

Designed to meet, and certified to the latest safety requirements, Signal's products are ideally suited for the broadest range of applications. As a result, they are confidently specified for employment in such medical applications as dental and X-ray equipment, and ultrasonic products. Transformers for industrial (isolation and buck boost in a NEMA 3R compliant enclosure) and elevator controls, HVAC (Class II), welding equipment, security systems, and fire and safety systems are listed. Also covered are devices targeting battery chargers, power supplies, lighting and test and measurement applications.

Parts are listed with US, CSA, VDE, TUV, and CE, and designed to the requirements of IEC, EN, IPC and JEDEC standards. Types of transformers featured in the catalog are: industrial control, super high efficiency, toroidal, high power, Class 2, triple output, low profile, encapsulated, step up/step down, autotransformer, rectifiers, chokes, 3 phase, and high frequency. Mounting options, hardware, and connectors are further detailed.

Signal's new full-line catalog may be downloaded from [www.signaltransformer.com](http://www.signaltransformer.com), requested free by way of an email to [sales@signaltransformer.com](mailto:sales@signaltransformer.com), or by calling 516/239-5777.

### About Bel

Bel ([www.belfuse.com](http://www.belfuse.com)) and its divisions, including Signal Transformer, are primarily engaged in the design, manufacture, and sale of products used in networking, telecommunications, high-speed data transmission, and consumer electronics. Products include magnetics (discrete components, power transformers and MagJack<sup>®</sup> connectors with integrated magnetics), modules (DC-DC converters, integrated analog front-end modules, custom designs), circuit protection (miniature, micro and surface mount fuses) and interconnect devices (passive jacks, plugs and cable assemblies). The Company operates facilities around the world.

Except for historical information contained in this news release, the matters discussed (including information regarding Signal Transformer and its catalog) are forward-looking statements that involve risks and uncertainties. Among the factors that could cause actual results to differ materially are the following: the effect of business and economic conditions, the impact of competitive products and pricing; capacity and supply constraints or difficulties; product development, commercializing or technological difficulties; the regulatory and trade environment; and the risk factors reported from time to time in the Company's SEC reports.
